

INSTRUCTIONS

Flammable Liquids Safety Cabinets

Models
8C300F, 8C450F, 8C600F

- SAFETY INSTRUCTIONS -

Handle flammable liquids carefully and in accordance with all stated directions on containers. Evenly distribute weight on shelves, keeping heavier loads on lower shelves. Keep doors closed! Each cabinet has (2) vents which are equipped with a flame arrestor and connections for a 2" standard pipe fitting for external exhaust. Check local, state and federal fire codes that may be applicable prior to use or installation. Consult with qualified safety personnel to determine those specific needs.

GENERAL INSTRUCTIONS

Customized shelves rest on solid shelf supports and are adjustable on 2" centers. Nest covers are installed both inside and outside of the cabinet. The cabinet leg levelers enable you to level cabinet at your desired height. A grounding screw is located on the lower right hand side of the cabinet. A grounding wire is **NOT** included.
